EducationCity

Let's take you through EducationCity, so you'll know more about how your child can use it at home.

LET'S LOG IN!

- 1 Go to www.educationcity.com and select 'Login'
- 2 Enter your details
- 3 Select your country

LOGGED IN? THEN LET'S GET STARTED!

Here is the homepage, where you can choose the subject you want to focus on, see what device you're using via device detection and take a look at the helpful MyFeatures, which we'll explore later.

Subject Area

MYCITY

MyCities are super handy. They include all the content your child's teacher has set your child to complete for classwork and homework. **Here are three simple pointers you should know about them:**

- 1 **'LOCK' SIGN**
 This means a MyCity is Sequenced and your child must complete content in the order set.
- 2 **'FLAG' SIGN**
 If this shows on the last piece of content, your child has completed that MyCity - well done!
- 3 **'DUE' SIGN**
 This means a MyCity needs completing by a certain date - great for managing any set work!

TOP TIP! View MySuccess to see your child's scores from MyCities - perfect for tracking progress!

Here's where you can track your child's progress. This area saves every score your child has achieved and is great for keeping up-to-date with your child's learning, whether in the classroom or at home.

DISCOVER LEARNING RESOURCES

So with over 10,000 resources, there are many great materials to help with teaching and learning. Here's just some types of content you could explore if you are looking to support your child with math.

1

CHECK KNOWLEDGE WITH A THINKIT

Understand what your child already knows about a concept with one of our ThinkIts.

Try the 'Fractions of Cake' ThinkIt
Content ID 14540

2

START WITH A LEARN SCREEN

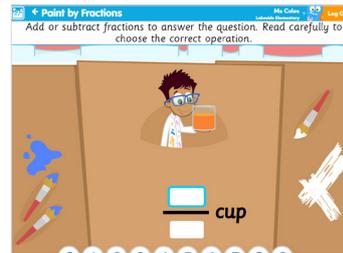

Get familiar with a new topic.

Try the 'Fractions in the Sky' Learn Screen
Content ID: 32173

3

MOVE ONTO AN ACTIVITY

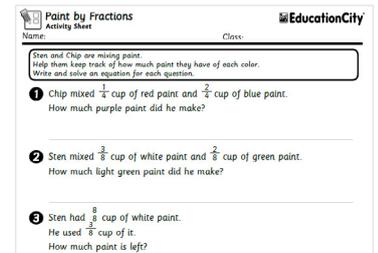

Interactive, timed tasks to support knowledge.

Try the 'Paint by Fractions' Activity
Content ID: 32841

4

PRACTICE WITH AN ACTIVITY SHEET

Follow up with an Activity Sheet to test knowledge gained.

Try the 'Paint by Fractions' Activity Sheet
Content ID: 32345

THERE ARE OTHER FANTASTIC TOOLS TO USE AS WELL!

Perfect for introducing a topic on the whiteboard.

Engaging ways to reinforce learning across the curriculum.

Great for using to talk about important concepts.
