

Create a Challenge

Challenges allow teachers to set goals that motivate their students. When students successfully complete a challenge, they earn a badge. Challenges can be based on either mastery of a topic (earning a specified number of mastery badges within a certain timeframe) or time on task.

1. Click **My Classes**.

2. Click **Challenges**.

3. If you teach multiple classes, select the class from the drop-down (top right of the page).

4. Click **Create a New Challenge**.

5. Enter the challenge title, availability dates, subject(s), and metric.

- a. If the challenge is based on the number of trophies students earn, enter the number required to complete the challenge.
- b. If the challenge is based on time on task, enter the number of minutes required to complete the challenge.

6. Enter a description of the challenge (optional).

7. Select the reward badge students will earn.

8. If desired, click the **X** next to a student's name to remove individual students from the challenge. By default, challenges apply to the whole class.

Lee Jordan has been removed from this challenge. Click the + to return him to the challenge.

9. Click **Save Changes**.

A confirmation message appears, and then you return to the Challenges page. The new challenge appears.

The screenshot shows the 'Challenges' page with a header icon of a target and the title 'Challenges'. Below the header is a section titled 'CHALLENGES CLASS VIEW' with the subtitle 'Explore ways to challenge your students.' The main content area is divided into two panels. The left panel is titled 'Create a New Challenge' and features a large grey circle with a white plus sign. The right panel is titled 'Brain Badge Challenge' and includes a pencil icon in the top left corner. It displays a red brain icon, the text '0 Completed this week', '0/5 Total Completed', and the dates 'Starts: July 20, 2017' and 'Ends: July 27, 2017'.

Edit a Challenge

1. Click the pencil icon next to the challenge name.

2. Edit the challenge as needed, and click **Save Changes**.
