

CALVERT
LEARNING

Solutions for Successful K-5 Virtual and Blended Learning

Dedicated to your Success Trusted for Over a Century

Calvert Learning helps schools succeed with K–5 virtual and blended learning. Like you, we're passionate educators who wake up every day thinking about student success. Our focus is building creative problem-solving and other lifelong skills students need to thrive in a fast-changing world. We provide the curriculum, tools, and services to make it happen, with a flexible approach based on your unique needs. Calvert is a mission-based organization that has specialized in nontraditional learning settings and experiences for over 110 years.

A Proven Curriculum and Framework

Calvert's curriculum is known for its academic rigor and engaging approach to learning.

- **Careful curation** ensures that content is of the highest quality and current and that it saves educators valuable time.
- **A cohesive, intuitive framework** guides the process, with project-based learning at the core.
- It is **designed to build lifelong skills:** creative problem-solving, independent thinking and the application of knowledge in real-world situations.
- It provides an **engaging digital experience**, with optional printed materials that reinforce learning.
- It is **supported by research** based on How People Learn, the consensus report by the National Academies of Sciences, Engineering, and Medicine.

achieved an average score of

93%

on summative assessments
focused on mastery.

Students learning
with Calvert averaged

92%

on summative assessments
for projects.

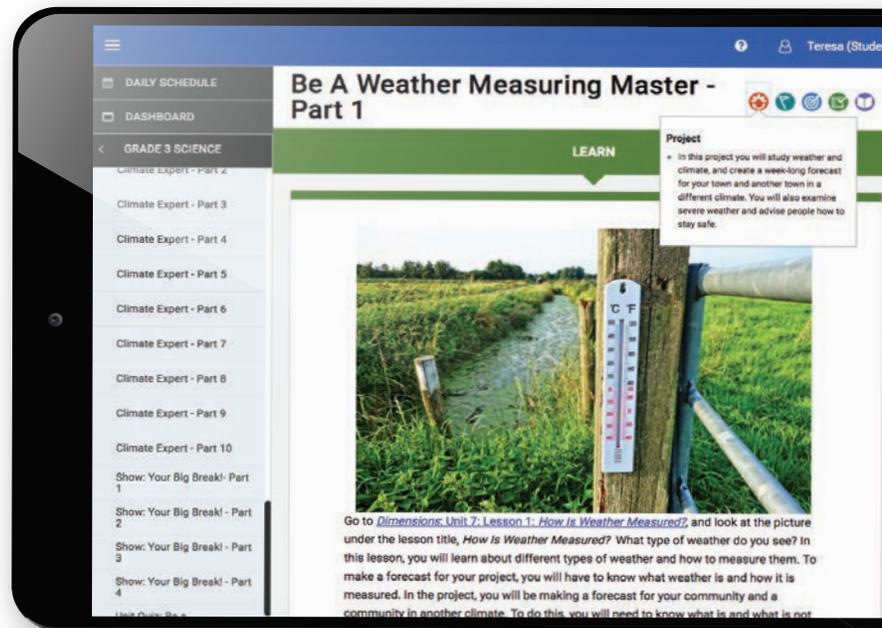

90%

of students learning with Calvert
report that they are excited to
work on projects.

The Calvert Curriculum: Engaging, Intuitive, and Effective

Calvert's curriculum includes:

- K–5 math, English language arts, science, social studies, as well as art, art history, health and PE Electives
- E-Textbooks with print options for K–5
- Daily lesson plans with step-by-step instruction—including a suggested daily schedule, assignment summary, and clear objectives
- Teaching notes, assessments, rubrics, and much more.

Calvert's research-based framework for teaching and learning:

Project Learn Use Show (PLUS)

Project

Carefully developed, age-appropriate projects motivate and engage students. They align to standards, build foundational skills, and teach students how to apply knowledge in solving real-world challenges. There are opportunities for students to collaborate with each other.

Learn

Students explore material through active learning opportunities that include interactive digital activities designed to encourage independent thinking. Frequent formative assessments provide many opportunities to assess students' understanding and intervene if needed.

Use

Lessons include formal checks that assess deeper learning (i.e., mastery) of the concepts. These assessments are aligned to standards, formatted as constructed response, and designed to show mastery.

Show

Students showcase what they've learned in creative expressive ways that demonstrate meaningful understanding.

Your Partner in Student Success

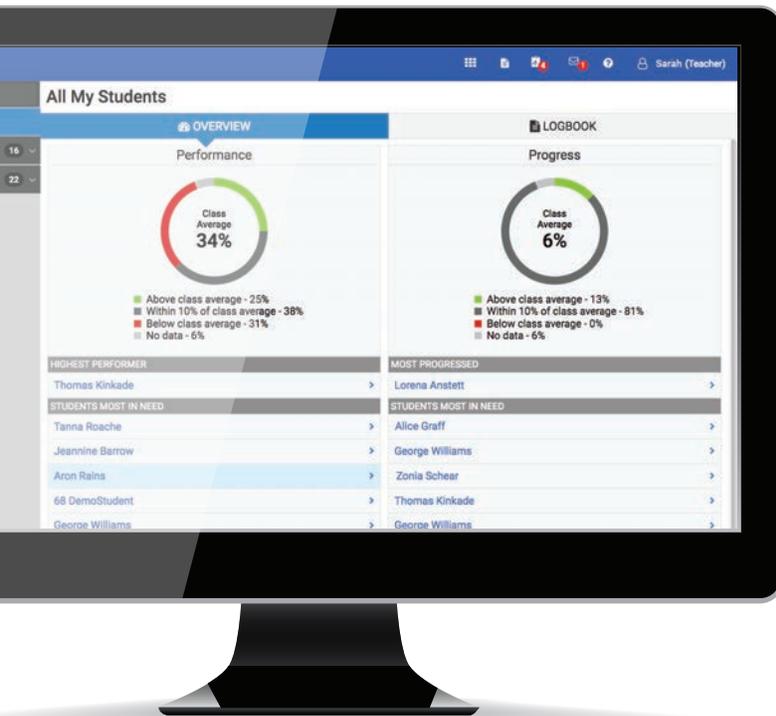

Services and Support That Ensure Your Success

Our full suite of services provides options for your unique needs:

- Program design and consultation
- Instructional services from certified teachers
- Training and professional development
- Marketing and enrollment services

Seamless onboarding allows for an easy and fast ramp up. Schools can be up and running with Calvert quickly.

Dedicated account managers give you a single point of contact to address your school's every need, with a "whatever it takes" attitude.

Teachers are supported every step of the way.

Calvert provides an easy-to-follow instructional framework, robust teaching notes, recommended student resources, and rubrics for grading right when and where they are needed. Detailed reporting on student progress and attendance keeps teachers informed so that they can address issues as needed.

Flexible, Modular Solutions Tailored for Your Unique Needs

Digital or Digital + Print

- Integration with leading learning management systems or Calvert's intuitive platform
- A full curriculum or individual courses
- A digital-only experience or printed materials and texts that complement the digital experience
- Instructional or other services based on your specific needs

Easy customization

- Accommodate the needs of your school community and district requirements with our intuitive interface
- Easily tailor the curriculum based on your students' specific needs and mastery (with options set by administrators)
